

**Still using spreadsheets  
to track your Dwg Office  
Documentation ?**

**Take Control  
of your Documents !**

**10 reasons to switch to DRPRO**

- Fully relational Database system
- Automated printing & emailing of Transmittal Slips
- Automatic tracking of printing costs
- Lightning fast batch document issuing system
- Full issue history of any document with one click!
- One click access to any document recorded
- Multiple disciplines tracked simultaneously
- Fast printing of Dwg/Doc Registers with varying detail
- Log & track time spent on each drawing or document
- Fully networked, accessible by everyone in the office

## Who's using DRPRO?

From the top architectural, engineering and interior design companies, to multi-office multi-disciplinary practices, construction companies, equipment suppliers, right down to the smallest one-man practice.

## On what kind of projects ?

From Mega size projects such as Gautrain, to most of the 2010 World Cup Soccer Stadiums around the country, to large turnkey mining projects, all the way down to the smallest housing project.

## Why are they using DRPRO?

Because it simply saves them time, saves them money, puts them in full control of their drawing/design office documentation, as well as helping them with ISO 9001 compliance and certification, so they can spend more time on their core activities to get the job done!

## WHAT CAN YOU DO WITH IT IN THE DRAWING OFFICE?

AS OF VERSION 2018-NL

1. Accessible by everyone in the Drawing Office, using **Floating Licences**
2. Create a database record of All Dwg / Docs created in the Drawing Office
3. Create a database record of All recipient companies involved in a project
4. Create a database record of All individual contacts in any company, by project
5. Create a database record of incoming Dwg / Docs with hyperlinks to local network or web link
6. Call a contact directly via Skype
7. View which projects a company has been involved in
8. Open any Dwg / Doc via a pre-defined hyperlink with just one click, including revision history (with additional clicks...)
9. View the progress status of any Dwg / Doc listed
10. Link your Dwg Nos. to Client's Dwg Nos. if required
11. Write your own comments about changes to any Dwg / Doc (keep it as ammunition for the end of the project)
12. View & Print the full issue history of any Dwg / Doc with one click
13. Issue a batch of Dwg / Docs to a pre-defined group of recipients, plus update all revisions with one click
14. Automatically send PDF Transmittal Slips via email with attachments and/or hyperlinks (Dropbox, FTP, etc.)
15. Add CC's to emailed Transmittal Slips
16. Copy All Dwg / Docs from one project to another with a few clicks
17. Copy All recipients from one project to another
18. Generate a Printing Costs Report for any project between any two dates
19. View & Track hours spent on every Dwg / Doc recorded (requires additional input)
20. View Dwg / Doc List by Discipline / Area / Category plus additional user-defined filters
21. View / Reprint / Cancel / Forward existing Transmittal Slips
22. Track Transmittal Slips signed and returned back to the office with hyperlink to signed PDF
23. Print from 28 different pre-defined reports with variations and additional filters
24. Print any Dwg / Doc Register with just a few clicks
25. Export raw data to CSV / Excel for your own use and manipulation
26. Import full Dwg / Doc lists from CSV directly into DRPRO
27. Define your own revision number / letter sequencing for special projects
28. Keep track of Designed / Drawn / Checked / Approved By for every Dwg / Doc
29. Send any on-screen list directly to PDF / CSV / XLS / XML / HTML / DOC formats with a few clicks
30. Subdivide projects into Areas and Sub-Areas and print registers by Area / Sub-Area
31. Have different logos for special projects

| <ol style="list-style-type: none"> <li>1. You may install <b>DRPRO-NL</b> (Network Licence) on every workstation in the office within the same Local Area Network.</li> <li>2. Everyone can have access to <b>DRPRO-NL</b> from their own workstations simultaneously, up to the number of Network Licences on subscription for the year. You decide where to install and who should have access to it.</li> <li>3. This is an <b>Annual Subscription</b> and entitles you to all new updates (major or minor) during the subscription period. See also Note 7.</li> <li>4. The pricing is simple: One single price per Network Licence per year. If additional Network Licences need to be added half-way through the year, they will be priced pro-rata until the next renewal date. This way the renewal date is kept the same for all Network Licences.</li> <li>5. After one year, the <b>Annual Subscription</b> becomes renewable. A reminder will be emailed 2 months before expiry and again 1 month later.</li> </ol> | <ol style="list-style-type: none"> <li>6. It must be renewed every year before the expiry date so as to be able to continue adding new records to the database (Drawings, Recipients, Transmittal Slips, etc.)</li> <li>7. If not renewed by the expiry date, DRPRO will NOT stop working, <b>BUT</b> the ability to add new Drawings and issue new Transmittal Slips will stop. However, your existing data will always be accessible as <b>View and Print</b> only. You will NOT be locked out of your existing data.</li> <li>8. If not renewed for a while, you may restart a new Annual Subscription at any future time at the prevailing price and also upgrade to the latest version. (No need to pay arrears Annual Subscriptions to get up-to-date). All existing data will be upgraded.</li> <li>9. The 'Network Licences' are allocated per Data Set. If you have multiple DRPRO Data Sets within the same Network, each Data Set is treated independently with its own number of 'Network Licences'. These licences can be transferred from one Data Set to another at any stage and at no extra cost.</li> <li>10. Please note that the DRPRO Network Licences (NL) are Floating / Roaming Licences. They can be used simultaneously on any workstation in the same Network up to the max. number of Licences on subscription for the year. <b>1xNL</b> = One User logged in at a time, <b>2xNL</b> = 2 Simultaneous Users logged in, etc...</li> </ol> |
